DETAILED ACTION

Election/Restrictions

1. This application contains claims directed to the following patentably distinct species of the claimed invention:

Species I: claims 1-2, 6, 16-17, and 21 (figure 1 and figure 6).

Species II: claims 1, 3, 6, 16, 18, and 21 (figure 1 and figure 5).

Species III: claims 1, 4, 6, 16, 19, and 21 (figure 1 and figure 7).

Species IV: claims 1, 5, 6, 16, and 20-21 (figure 1 and figure 8).

Species V: claims 1, 6, 7, 16, and 21-22 (figure 1 and figure 9).

Species VI: claims 1, 6, 8, 16, 21, and 23 (figure 1 and figure 4).

Species VII: claims 9-10, 13, 24-25, and 28 (figure 4 and figure 8).

Species VIII: claims 9, 11, 13, 24, 26, and 28 (figure 4 and figure 7)..

Species IX: claims 9, 12, 13, 24, and 27-28 (figure 4 and figure 5).

Species X: claims 9, 13-14, 24, and 28-29 (figure 4 and figure 9).

Species XI: claims 9, 13, 15, 24, 28, and 30 (figure 4 and figure 3).

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claim 1 is a generic claim for groups I-VI and claim 9 is a generic claim for groups VII-XI.

Application/Control Number: 10/802,014

Art Unit: 2618

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Conclusion

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Pablo Tran whose telephone number is (571)272-7898. The examiner normal hours are 9:30 -5:00 (Monday-Friday). If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Edward Urban, can

Art Unit: 2618

be reached at (571)272-7899. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

3. Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) System. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-directauspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
